THE PFO-100 FLUX OVEN

Stores submerged arc flux by keeping it
HOT and DRY!

(PFO-100)
(150 lb. - 68Kg capacity)

FEATURES:

- 150 lb. (68 Kg) flux storage capacity.
- Powerful 1000 watt heating elements.
- Total and uniform heating of flux. (Heating elements extend through the flux, insuring total heat transfer.)
- Temperature range from 175°F to 550°F (79°C to 288°C)
- Accurate temperature control.
- Large thermometer for easy temperature reading (indicates both °F and °C)
- High temperature fiber glass insulation for maximum efficiency.
- Removable slag screen.
- Portable and easy to move.
- Flux valve on front of oven discharges hot flux quickly and easily into an appropriate container.

SPECIFICATIONS:

- Input power: (1000 watt)
115V/1ph/9 amps or
220V/1ph/4.5 amps
- Weight: 87 lbs. (39.5 Kg)
- Dimensions:
49" (124.5 cm) H x 19" (48.3 cm) W x 22.5" (57.2 cm) D
- System comes ready to use.
